Medeco Locks Are The Solution To Lock Bumping

"Lock bumping" is a hot topic. [Read more](#) about how Medeco can prevent Lock Bumping...

The internet has played a big role in identifying the problem but at the same time is educating future burglars. 'How to' instructions and videos are all over the internet. This is not a new technique - locksmiths have used it for years. Now that the cat is out of the bag we all have to install counter measures. Medeco locks offer the best protection against all types of attack. Lock picking, lock bumping even drilling are all thwarted by Medeco's patented design.
